

OUR STRENGTH RUNS DEEP

Your single-source resource
to tackle the toughest environmental
infrastructure challenges

**MOBILE DREDGING
& VIDEO PIPE**

A Carylon Company

PROVEN TRACK RECORD

Mobile Dredging & Video Pipe, Inc., a Carylton company, specializes in the inspection and planned maintenance of sewer pipes and water mains, industrial cleaning services, and on-site soil remediation services. Mobile Dredging & Video Pipe has been hydraulically dredging sediments for more than 50 years and added mechanical dewatering of sediments and sludges to these services in the 1980s. We have experienced personnel to perform dredging and dewatering projects of all sizes and complexities. We have a long track record of success providing the expertise, equipment, technology and training to quickly, safely and reliably take on any infrastructure challenge.

Extensive training, experienced supervision

With Mobile Dredging & Video Pipe, you know who will be working on every project: the best of the best. Our extensive training program and experienced field supervision ensure that every job gets done right the first time – and every time. Because when you’re facing tough, gritty, real-world applications, you want a partner you can count on to deliver quality results.

Guaranteed to get the job done right

As part of the Carylton family, Mobile Dredging & Video Pipe has the resources and expertise to offer the best possible service available anywhere and back every project with a guarantee that is unmatched in the industry:

“You must be completely satisfied or you pay absolutely nothing for our services.”

Local presence, national footprint

Based in Chester, Pennsylvania, with locations in Maryland and New Jersey, Mobile Dredging & Video Pipe has the ability to complete projects nationwide. Our local market presence also lets us leverage knowledge of relevant environmental issues so we can respond quicker to an infrastructure threat or emergency.

BROAD RANGE OF SERVICES

It doesn't matter if your project calls for the use of one piece of equipment or multi-disciplinary crews and a fleet of specialized equipment. Mobile Dredging & Video Pipe is uniquely positioned to work side-by-side with municipalities, utilities and industrial companies to deliver proven, scalable solutions.
